

COMPANY

“Cables y Alambres Especiales S.A” is one of the oldest European manufactures of steel wire and wire rope.

Founded in 1898 with the name of “Sociedad Franco Española de Alambres y Cables S.A” (S.F.E) changed the name to “Cables y Alambres Especiales S.A” (C.A.E.S.A) because reasons due to trade marks and patents owned by the preceding shareholders. Our factory occupies 35.000 square meters in Bilbao industrial area, near the harbour that helps our export activities

We manufacture steel wire ropes, strand and wires using steel wire rod as our raw material.

We drawn our own wires and are able to supply wire ropes in a short time, if necessary, being very flexible on the manufacturing.

Our range of products goes from 1,5 mm to 150 mm diameter.

Capacities of fabrication per reel are:

60 Tm/reel on 6 strand wire ropes.

74 TM/reel on 8 strand wire ropes.

Our catalogue includes all type of ropes: six, eight strand, rotary resistance and non-rotating wire ropes.

Our ropes are working in the five continents due our export activity; fishing ropes, elevator ropes, skies lift ropes, off-shore ropes, crane ropes, architecture ropes, structural strand, etc..., are among the most common uses.

C.A.E.S.A is an ISO-9001:2000 certificated company and is homologated by the most Classification Society as Lloyd’s Register, Bureau Veritas, Germanishe Lloyd, Det Norske Veritas and others included A.E.N.O.R.(Spanish association of standardisation and Certification) for Cableway installation designed to carry persons.
